

DEM-58-G2 DEM-58-G2

SIDE MAGNETIC CONTACT OF HIGH POWER IDEAL FOR METAL DOORS

FEATURES

- Side magnetic contact of high power
- Ideal for metallic doors
- ABS grey external plastic case
- Aperture operative distance Y over non ferromagnetic material of 60 mm
- Closure operative distance Y over non ferromagnetic material of 50 mm
- Aperture operative distance Z over non ferromagnetic material of 70 mm
- Closure operative distance Z over non ferromagnetic material of 55 mm
- Disc operative distance X of 25 mm
- Operative distance over ferromagnetic material a 25% lower
- Alnic 5 magnet
- 4x0,18 cable hoos of 2 meters with steel protective flexo
- Working temperature 30°C ~ +70°C
- Contact dimensions: 72 x 17 x 14 mm
- EN501312-6 de Grade 2 Class III

KEY FEATURES

- Side magnetic contact of high power ideal for metal doors
- ABS grey external plastic case
- Operative distance of aperture/closure Y of 60/50 mm
- Operative distance of aperture/closure Z of 70/55 mm
- Alnic 5 magnet
- EN50131-2-6 Grade 2, Class III
