

KEY FEATURES

- Triple technology detector for outdoor
- Dual infrared, microwaves at 10.525 GHz
- and artificial intelligence
- Range: 12m x 12m
- Immunity against small animals <20Kg
- Optimum mounting at 2.2m height

QAR-198 QAR-198

TRIPLE TECHNOLOGY DETECTOR FOR OUTDOOR

- Triple technology detector for outdoor
- Dual infrared, microwaves at 10.525 GHz. and artificial intelligence
- Range: 12m x 12m
- Immunity against small animals <20Kg
- Optimum mounting at 2.2m height
- Automatic analysis of interferences or real intrusions by using artificial intelligence
- Lens with special filter, immunity against white light 10000 lux
- Microwave sensitivity adjustable
- Microwave with Dopler effect and flat aerial
- Automatic temperature compensation
- IP65 weather case
- Alarm contacts: NC/NA selectable
- Sabotage contacts: NC
- Supply: 9 at 16Vcc /30mA at 12Vcc
- Operating temperature from -20°C to 70°C
- Dimensions: 153x80x58mm
