

SAM-3459 SAM-3459

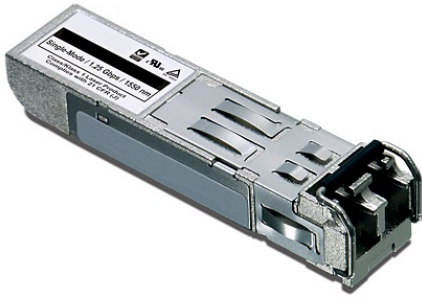

LC MONOMODE MODULE . 1550NM

FEATURES

- Module designed to connect to any Gigabit Ethernet computer that has a GBIC standard industry slot.
- Compatible with IEEE 802.3z Gigabit Ethernet and fiber channel standard
- SFP standard package
- LC Duplex connector
- Compatible with fiber optic channel of 1.0625Gbps
- Compatible with Gigabit Ethernet of 1.25Gbps
- Power supply voltage 3.3V

SPECS

- Wavelength: 1550nm
- Output power lens(dBm): 3 ~ 3
- Input power lens (dBm): 26 ~ -3
- Power capacity: 23
- Distance: 80km

KEY FEATURES

- LC monomode module
- 1550nm
- 80 km
