

Download and install the OPTEX Vision app

Search for "OPTEX Vision" in the App Store

Ensure that your mobile device is connected to the same WiFi network you wish to add the VXI-CMOD onto.

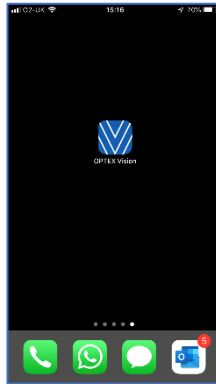

IMPORTANT: Before proceeding with the following setup, ensure that:

WiFi ON ☒

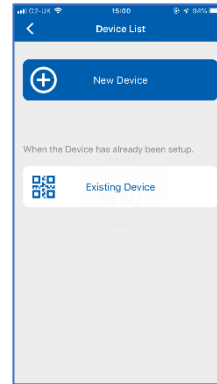

Mobile Data OFF ☐

Location ON ☒

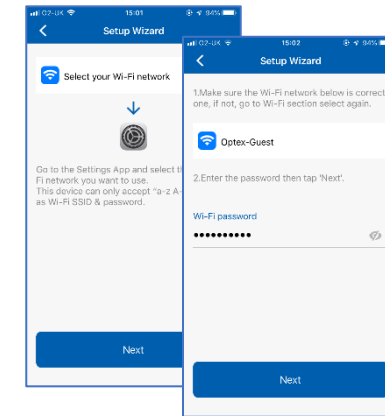

1. Start the OPTEX Vision application

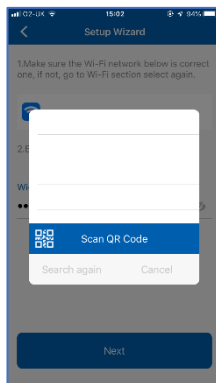

2. Click on “Add Device”, then “New Device

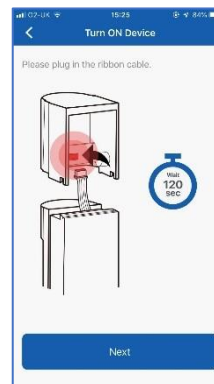

3. Click “Next”, then enter your WiFi password

4. Scan the QR code on the VXI-CMOD

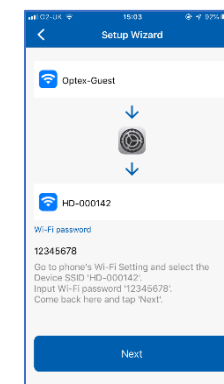

5. Power on the VXI-CMOD (If it was already on, please reboot)

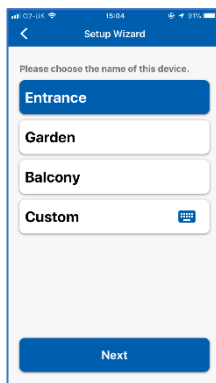

You **must** wait 2 minutes before proceeding to the next step to allow the VXI-CMOD to fully boot

6. After 2 minutes, click “Next”
Follow the on-screen instructions to enter the WiFi password

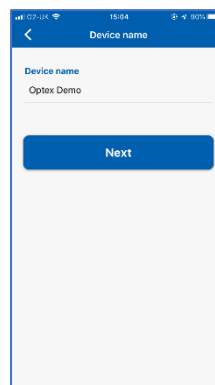

The VXI-CMOD will now be joined to your chosen WiFi network

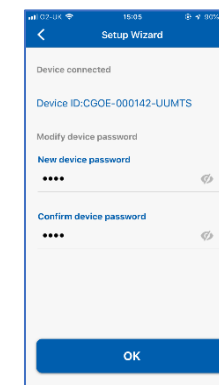

7. After 2 minutes, click “Next”. Either select one of the pre-defined names...

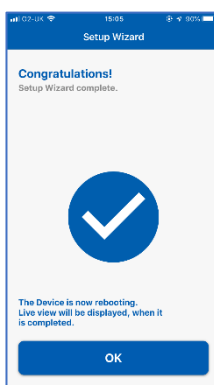

8. ...Or select “Custom” and enter your chosen device name

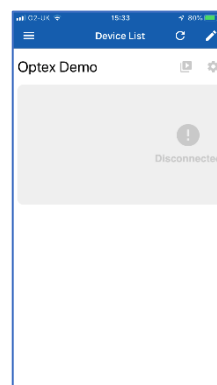

9. Choose a device password, and enter it (twice)

10. Congratulations, you are complete!

11. The unit will re-connect to the WiFi network, and **after 100 seconds** will be available.

12. Click on the “Refresh” icon after 100 seconds to display a snapshot image
